Motion Activated Spy Camera

Key Vaule Highlight

1. Smart Person Detection

This Motion Activated Spy Camera can detect human being accurately in the live video with a smarter algorithm and send push message to your mobile phone.

2. Covert Camera

Install this camera shooting to the entrance or exit can capture the facial detail without being detected.

3. All-in-One

The camera is a completed hidden security system in a single device. Insert Marco SD card, the Motion Activated Spy Camera will start person detected recording.

4. Free app for mobile accessing

You can easily watch the live video, playback the recording footage from Motion Activated Spy Camera on your mobile phone, tablet or PC computer.

5. Night vision Compatible.

One of the downside for pinhole camera is the night vision because the pinhole lens is too small to pass enough light, but not with ours. With built-in IR cut filter, the Motion Activated Spy Camera can switch to black/white at night to see the infrared, you can use an add-ons external infrared LEDs to light up the whole area.

6. Complete Open

With onvif profile-S, you can integrate this Motion Activated Spy Camera to any 3rd party Onvif NVRs or VMS software.

7. Easy to setup

The Motion Activated Spy Camera support both WiFi and cat5e wire connection which provides great flexibility in installation.
